

# Plant Guardian

## David Simpson

Gardening is such a big part of my life. I do it to keep fit, but it also fulfils my creative side. I love ‘painting with plants’, and it gives me a real sense of satisfaction.

Our front garden is planted in an informal cottage style for colour and scent, and we care for plants holistically; encouraging wildlife too.

I enjoy being a Plant Guardian, helping to care for rare plants and feel I’m doing my bit to help keep these special plants going.
